

TAKWA HAFYEN

Full-Stack Software Engineer — React, TypeScript & Node.js

Mahdia, Tunisia | +216 29 19 66 16 | takwa.hafyen@gmail.com | linkedin.com/in/takwa-hafyen

SUMMARY

Full-Stack Software Engineer building and shipping production web applications end-to-end — from React/TypeScript front-ends to Node.js back-ends, REST APIs, and real-time integration layers connecting to relational databases and AI-driven services. Comfortable owning a feature from architecture through deployment, with solid engineering fundamentals: Git-based workflows, automated testing (Vitest, Playwright), and CI/CD (GitLab, Docker). Daily user of AI-assisted coding tools (Claude Code, Cursor) as part of my development workflow. Curious about new frameworks and patterns, and attentive to trade-offs between performance, cost, and maintainability.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, WebSocket (Centrifugo), Payload CMS, JWT Authentication

Databases & Integration: PostgreSQL, MongoDB, Stripe, LiveKit, third-party API integration

Engineering Practices: Git, GitLab CI/CD, Docker, Automated Testing (Vitest, Playwright), Code Reviews, Agile/Scrum

AI-Assisted Development: Claude Code, Cursor AI, LLM integration (OpenAI, Gemini), RAG pipelines

PROFESSIONAL EXPERIENCE

Software Engineer — Originis Solutions

11/2025 - Present

Losange-TN — Multi-Tenant Educational Platform ([losange.tn](#))

11/2025 - Present

- Owned full-stack features end-to-end — architecture, implementation, and deployment — for a multi-tenant platform (Next.js, React, TypeScript, Node.js, PostgreSQL), including a production RAG pipeline connecting course resources to an LLM-based content-generation service.
- Built real-time integration layers (WebSocket via Centrifugo, LiveKit for video) connecting front-end clients to back-end services under live classroom load, with snapshot persistence in PostgreSQL.
- Collaborated via Git/GitLab workflows and code reviews to keep the codebase reliable and maintainable; covered features with automated tests (Vitest, Playwright) and shipped through GitLab CI/CD with Docker.

Technologies: React • Next.js • TypeScript • Node.js • PostgreSQL • Centrifugo • LiveKit • Git/GitLab CI/CD • Docker

Study141 — 1-to-1 Tutoring & Booking Platform

02/2025 - 07/2025

- Built and integrated a payments layer (Stripe) and REST APIs (PostgreSQL) for a booking platform, with role-based access control and a Vitest + Playwright test suite.

Technologies: React • Next.js • TypeScript • Node.js • PostgreSQL • Stripe • Vitest • Playwright

End-of-Studies Internship — Draexlmaier Group

02/2025 - 06/2025

El Jem — Lessons Learned Smart Application

- Built AI models for error recognition and corrective-action prediction, integrated into a knowledge-management application used by production teams.

Technologies: Python • KNN • Random Forest • Gradio • HuggingFace

Engineering Internship — Tradrly

07/2024 - 09/2024

- Built a full-stack e-commerce application using the MERN stack (MongoDB, Express.js, React.js, Node.js), with dynamic product management, authentication, and order handling.

Technologies: MongoDB • Express.js • React.js • Node.js

PROJECTS

Clinic Management System

- Developed a full-stack clinic management system (React, Node.js, MongoDB) for patient records, appointments, and doctor scheduling.

Technologies: React • Node.js • MongoDB

Housing Management Website

- Built responsive React interfaces for a housing management platform with REST APIs for listings, authentication, and user management.

Technologies: React • Node.js • MongoDB • Tailwind CSS

EDUCATION

Engineering Diploma in Networking and Communication — ENIG 09/2022 – 07/2025
Specialization: Network and Computer Systems — Graduated with High Honors — Gabès

Preparatory Cycle for Engineering Studies — IPEIM 06/2022
Monastir

Bachelor's Degree in Experimental Sciences 09/2019 – 07/2020
Graduated with Honors (16.43/20) — Ksour Essef, Mahdia

CERTIFICATES

- Microsoft Azure AI Fundamentals
- Scrum Fundamentals Certified
- DELF B2

LANGUAGES

Arabic — Native | French — Fluent | English — B2
